## NEWSLETTER OF THE PENNSYLVANIA RAILROAD CHAPTER OF THE CONSTRUCTION SPECIFICATIONS INSTITUTE

WWW.CSIPRR.ORG

### *October Meeting*

CENTRIA was formed in 1996, by bringing together the former E.G. Smith Construction Products, Inc, Settlite, Inc., and H.H. Robertson companies. At CENTRIA they offer more than a century of combined experience in engineering, manufacturing, and constructing nonresidential, architectural, industrial and institutional metal buildings.

CENTRIA's business segments include:

**CENTRIA Architectural Systems** is the world leader in custom-engineered architectural metal enclosure systems.

**CENTRIA Coil Coating Services** provides extensive coil coating capabilities. These capabilities make CENTRIA Coating Services a supplier of choice for such demanding industries as automotive and residential building products.

**H.H. Robertson Floors System** offers electrified cellular decking which provides a proven, cost-effective system for handling the rapidly-changing wiring and cabling needs of today's buildings.

**CENTRIA Worldwide** Provides international access to CENTRIA's advanced technologies and projects, plus construction support and project supervision.

The Chapter meeting will take place at the Bullpen Restaurant in Tyrone, PA at 5:30 pm. Tuesday, October 2, 2007. The cost is \$20 for a buffet dinner preceding the presentation.

RSVP by October 1 to Mike Lechleitner at [mikelechleitner@lrkimball.com](mailto:mikelechleitner@lrkimball.com) or 814-472-7700 ext 252.

### *The learning objective of CENTRIA's Presentation:*

- Review the Performance Requirements of Exterior Wall Systems
- Review how Multi-Component Walls are constructed
- Discuss how to control moisture and vapor in various climates
- Examine Massachusetts Building Code Requirements
- Define rain screen types & usage
- Rain screen Testing Procedures and Results
- Study wall assemblies with superior performance that are sustainable
